Patent Cooperation Treaty Information

For information concerning the PCT member countries and the most recent PCT rule changes, see the notices appearing in the Official Gazette at 1001 O.G. 14 on Dec. 9, 1980 and at 1012 O.G. 20 on Nov. 17, 1981. For use of the European Patent Office as a searching authority for PCT applications filed in the United States, see the notice in the Official Gazette of Sept. 28, 1982 at 1022 O.G. 52.

Note that the international fees have been increased as of Jan. 1, 1982 and that the domestic PCT fees have been increased as of Oct. 1, 1982. Domestic PCT fees were increased by a rule change which was published at 1021 O.G. 11 on Aug. 10, 1982. The current schedule of fees is as follows:

Transmittal fee	$ 125.00
Search fee	
U.S. Patent and Trademark Office as Searching Authority	
• No corresponding prior U.S. national application filed	500.00
• Corresponding prior U.S. national application filed	250.00
European Patent Office as Searching Authority	
• All cases	710.00
International Fees	
Basic Fees (first 30 pages)	270.00
Basic Supplemental Fee (for each sheet over 30)	6.00
Designation fee (for each national or regional office)	65.00

[Docket No. 21001-202]

Revision of Patent Procedure

AGENCY: Patent and Trademark Office, Commerce

ACTION: Notice of proposed rulemaking.

SUMMARY: The Patent and Trademark Office proposes to amend the rules of practice in patent cases, Part 1 of 37 CFR, to implement the sections of Public Law 97-247 of 1982 which become effective on February 27, 1983, and to make other miscellaneous changes. The other miscellaneous changes are being made to clarify and improve the rules where appropriate. The rulemaking also proposes to amend Part 5 of 37 CFR to establish procedures expediting the granting of a license under 35 U.S.C. 184 permitting filing of a patent application in a foreign country and to indicate on the application filing receipt if such a license is granted. This action is necessary at this time in order that final rules may be adopted prior to February 27, 1983, the effective date of the sections of Public Law 97-247 which this proposal seeks to implement.

DATES: Comments must be submitted on or before December 16, 1982; a public hearing will be held December 16, 1982, 9:30 a.m.; requests to present oral testimony should be received on or before December 9, 1982.

ADDRESSES: Address written comments and requests to present oral testimony to the Commissioner of Patents and Trademarks, Attention: R. Franklin Burnett, Room 3-11A13, Washington, D. C. 20231. The hearing will be held in Room 11C24 of Building 3, Crystal Plaza, located at 2021 Jefferson Davis Highway, Arlington, Virginia. Written comments and a transcript of the public hearing will be available for public inspection in Room 11A13 of Building 3, Crystal Plaza at 2021 Jefferson Davis Highway, Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: R. Franklin Burnett by telephone at (703) 557-3054 or by mail marked to his attention and addressed to the Commissioner of Patents and Trademarks, Washington, D. C. 20231.

SUPPLEMENTARY INFORMATION: This proposed rule change is designed primarily to 1) implement the changes in practice in the Patent and Trademark Office provided for in Public Law 97-247 enacted on August 27, 1982; 2) correct, or clarify or rewrite certain rules; and 3) to expedite the granting of licenses under 35 U.S.C. 184.

This proposal contains a number of changes in practice designed to benefit both the Office in its handling of its mission and the public the Office serves.

Certain of the proposed changes are more or less housekeeping in nature.

A final rule on "Revision of Patent and Trademark Fees" was published on July 30, 1982 at 47 FR 33086-33112 with corrections in the printing thereof being published on August 4, 1982, at 47 FR 33688 and on August 5, 1982, at 47 FR 33959. The final rule was also published in the Official Gazette on August 10, 1982, at 1021 O.G. 19-94. A final rule relating to definitions of "independent inventor" and "nonprofit organizations" was published on September 10, 1982 at 47 FR 40134-40140. A "Revision of Patent and Trademark Fees Confirmation" was published on September 17, 1982 at 47 FR 41272-41283 upon enactment of H.R. 6260 as Public Law 97-247 on August 27, 1982. A final rule relating to the definition of "small business concern" was published on September 30, 1982 at 47 FR 43272-43276.

DISCUSSION OF SPECIFIC RULES:

Section 1.4, if amended as proposed, would add a reference to Subpart D relating to citation of prior art and reexamination.

Section 1.6, if amended as proposed, would insert "federal" before "holidays" in paragraphs 1.6(a)-(c) in accordance with §21(b) of Title 35, United States Code, as amended by Public Law 97-247. Proposed new paragraph 1.6(d) would establish in the regulations a procedure under which papers and fees which could not be filed on a particular date because of an interruption or emergency in the United States Postal Service which is so designated by the Commissioner, may be promptly filed after the ending of such a designated interruption or emergency and be considered as having been filed on that particular date. Authority for such a practice is found in §21(a) of Title 35, United States Code, as amended by Public Law 97-247.

Section 1.7, if amended as proposed, would insert "federal" before "holiday" in accordance with 35 U.S.C. 21(b), as amended by Public Law 97-247.

Section 1.8, if amended as proposed, would delete in paragraph 1.8(a) the references to §§3.55 and 4.23, which sections were deleted from the rules by the rulemaking entitled "Revision of Patent and Trademark Fees" published in the Federal Register on September 10, 1982 at 47 Fed. Reg. 40134-40140. The proposed change in paragraph 1.8(a)(i) results from the change made in §111 of Title 35, United States Code, by Public Law 97-247. Under the proposal, the certificate of mailing procedure would be available for filing oaths or declarations and filing fees. However, the certificate of mailing procedure could not be used for filing specifications and drawings to obtain a filing date. Such papers could be filed under proposed §1.10. The proposed change in paragraph 1.8(a)(viii) would recognize the establishment of the Court of Appeals for the Federal Circuit.

Section 1.10, if added as proposed, would provide a procedure for assigning the date on which any paper or fee is deposited as Express Mail with the United States Postal Service as the filing date of the paper or fee in the Patent and Trademark Office.

Authority for the Commissioner to establish such a procedure is provided in §21(a) of Title 35, United States Code, as amended by Public Law 97-247. The proposed procedure, in paragraph 1.10(a), would require the use of the "Express Mail Post Office to Addressee Service" of the United States Postal Service. This service provides for the use of a mailing label which clearly indicates the date on which it was deposited. Proposed paragraph 1.10(b) would require (1) that the number of the Express Mail mailing label be placed on each paper or fee and (2) that a certificate of express mailing, signed by the person mailing the paper or fee, accompany the paper or fee and state the date of deposit as Express Mail in the United States Postal Service. Under proposed paragraph 1.10(c), the Office would accord the paper or fee the certificate date as the filing date without further proof if the paper or fee is received in the Office on the first day the Office receives papers or fees following the certificate date. Since Express Mail provides for one day delivery, the certificate plus timely receipt one day later is considered sufficient evidence to establish the deposit date. If, however, more than one day has elapsed between the certificate date and the Office receipt date, paragraph 1.10(c) provides that the person mailing the paper or fee may be required to file (1) a copy of the Express Mail receipt showing the actual date of mailing and (2) an affidavit or declaration from the person who mailed the paper or fee averring to the fact that the mailing occurred on the date certified. The certificate of mailing procedure of §1.8(a) would continue to be available in addition to the proposed procedure under §1.10.

Section 1.17, paragraph (h), if amended as proposed, would delete the reference to §1.45 and add a reference to proposed §1.48 relating to the correction of inventorship in patent applications.

Section 1.22 as it currently exists is proposed to be labeled as paragraph (a) and is proposed to be amended to recognize that filing dates may be assigned without payment of the basic filing fee as authorized by §111 of Title 35, United States Code, as amended by Public Law 97-247. Proposed new paragraph 1.22(b) would indicate that fees paid to the Office should be itemized in such a manner that the purpose for which the payment is submitted can be clearly determined by Office personnel for proper processing.

Section 1.24, if amended as proposed, would delete the reference to coupons in denominations of forty cents since coupons in this denomination are no longer necessary.

Section 1.41, if amended as proposed, would require in paragraph 1.41(a) that a patent be applied for in the name of the actual inventor or inventors and that the full names of the inventors be stated. Paragraph 1.41(b), as proposed to be amended, clarifies the definition of the word "applicant". Proposed new paragraph 1.41(c) permits any person authorized by the applicant to file an application for patent in order to receive a filing date on behalf of the inventor or inventors, but the oath or declaration for the application must be made by all of the actual inventors in accordance with proposed §§1.63 and 1.64. Under proposed new

paragraph 1.41(d), a showing may be required from the person initially filing an application that the filing was authorized.

Sections 1.42 and 1.43, if amended as proposed, would remove the requirement that the legal representative sign the application papers in view of the proposed changes pursuant to 35 U.S.C. 111 as amended by Public Law 97-247. The oath or declaration must still be signed. Several occurrences of the masculine gender in §1.42 are also proposed to be deleted.

Section 1.45, if amended as proposed, would delete present paragraphs 1.45(b) and (c) in view of proposed new §1.48 and remove the requirement that joint inventors sign the application papers. The joint inventors would, however, still be required to make the oath or declaration in accordance with proposed new §§1.63 and 1.64.

Section 1.46, if amended as proposed, would permit anyone to file the application if authorized by the inventor or inventors or one of the persons mentioned in §§1.42, 1.43, or 1.47.

Section 1.47, if amended as proposed, would change the reference for the rule on oaths or declarations from §1.65 to proposed §1.63.

Section 1.48, if added as proposed, would add a new section relating to correction of inventorship as authorized by §116 of Title 35, United States Code, as amended by Public Law 97-247. Under proposed §1.48, if the correct inventor or inventors are not named in an application for patent, the application could be amended to name only the actual inventor or inventors so long as the error in the naming of the inventor or inventors occurred without any deceptive intention. Proposed §1.48 would require that the amendment be diligently made and be accompanied by (1) a petition including a statement of facts verified by the original named inventor or inventors establishing when the error without deceptive intention was discovered and how it occurred; (2) an oath or declaration by each actual inventor or inventors as required by §1.63; (3) the fee set forth in §1.17(h); and (4) the written consent of any assignee. Correction would be permitted in cases where the person originally named as inventor was in fact not the inventor of the subject matter contained in the application. If such error occurred without any deceptive intention on the part of the true inventor, the Office would have the authority to substitute the true inventor for the erroneously named person. Although probably rarer, instances such as changes from a mistakenly identified sole inventor to different, but actual, joint inventors; conversions from erroneously identified joint inventors to different but actual, joint inventors; and conversions from erroneously identified joint inventors to a different, but actual, sole inventor would also be permitted. In each instance, however, the Office would have to be assured of the presence of innocent error, without deceptive intention on the part of the true inventor or inventors, before permitting a substitution of a true inventor's name.

Section 1.51, if amended as proposed, would change the reference in paragraph (a)(2) to new §1.63 for the requirements of an oath

or declaration and would change paragraph (b) with regard to the required time for filing material information disclosure statements.

Section 1.52, if amended as proposed, would revise paragraph 1.52(c) relating to interlineations, erasures, cancellations or other alterations in application papers to specify that such changes must be made before the signing of any accompanying oath or declaration and should be dated and initialed or signed by the applicant on the same sheet of paper. Paragraph 1.52(c), as proposed to be amended, would prohibit making alterations in the application papers after the signing of an oath or declaration referring to such application papers. Under paragraph 1.52(c), as proposed to be amended, amendments to application papers made after the signing of an oath or declaration referring to the application papers, could only be made in the manner provided by §§1.121 and 1.123-1.125.

Section 1.53, if amended as proposed, would revise the title to indicate that the section, as amended, would relate to application serial numbers, filing dates and completion of applications. Paragraph 1.53(a) as proposed, would indicate that a serial number is assigned to any application received for identification purposes, even if the application is incomplete or informal. Paragraph 1.53(b), as proposed, would provide that a filing date would be assigned an application as of the date a specification containing a description and claim and any required drawing are received in the Patent and Trademark Office. Although the filing fee and oath or declaration could be submitted later, no amendments could be made to the specification or drawings which would introduce new matter. This practice is authorized by 35 U.S.C. 111 as amended by Public Law 97-247. Proposed new paragraph 1.53(c) would provide for notifying applicant of any application incomplete because the specification or drawing is missing and giving the applicant a time period to correct any omission. If the omission is not corrected within the time period given, the application would be returned or otherwise disposed of and a handling fee of $50.00 would be retained from any refund of a filing fee. Proposed new paragraph 1.53(d) would provide that, where a filing date has been assigned to a filed specification and drawing, the applicant will be notified and be given a period of time in which to file the missing fee, oath or declaration and to pay the surcharge due. Proposed new paragraph 1.53(e) would indicate that a patent application would not be forwarded for examination on the merits until all required parts had been received. Proposed new paragraph 1.53(f) indicates that international applications filed under the Patent Cooperation Treaty which designate the United States of America are considered to have a United States filing date, except as provided in 35 U.S.C. 102(e), on the date the requirements of PCT Article 11(1)(i) to (iii) are met.

Section 1.54, if amended as proposed, would designate the existing section as paragraph (a) and add a reference to §1.53. Paragraph 1.54(b) is proposed to be added to indicate that applicant will be informed of the serial number and filing date of the application.

Section 1.55, if amended as proposed, would limit the section to claims for foreign priority by deleting paragraphs (a) and (d) and redesignating paragraphs (b) and (c) as paragraphs (a) and (b). Paragraph 1.55(a), as proposed, would change the reference from §1.65 to proposed §1.63.

Section 1.56, if amended as proposed, would revise paragraph (c) to delete reference to signing of the application but would add reference to signing of the oath or declaration pursuant to proposed §1.63. Under paragraph 1.56(c), as proposed to be amended, an application may be stricken from the files if an oath or declaration pursuant to proposed §1.63 is signed in blank, or without actual inspection of the application papers, or without the review of the specification indicated in proposed §1.63(b). Paragraph 1.56(c), as proposed to be amended, would also provide for an application to be stricken from the files if application papers filed in the Office are altered after the signing of an oath or declaration pursuant to proposed §1.63 referring to those application papers.

Section 1.57 is proposed to be deleted since the requirements relating to applicant's signature to the oath or declaration of the application are adequately covered in other sections.

Section 1.59, if amended as proposed, would be rewritten to refer to and conform with the changes proposed in §1.53.

Section 1.60, if amended as proposed, would require the applicant to supply a verified copy of the originally signed application in all cases where the §1.60 filing procedure is used. The Office would no longer prepare copies without charge under the proposal. The Office, by a separate final rule, is adopting a new §1.62 to provide for the filing of a file wrapper continuing application which will eliminate the need for the Office to continue to prepare copies under §1.60.

Section 1.63, if added as proposed, would add a section replacing current §1.65 relating to the required content and execution of an oath or declaration filed as a part of a patent application. Proposed paragraph 1.63(a) provides that the oath or declaration, (1) be executed in accordance with §1.66 or §1.68, (2) identify the specification to which it is directed in some definite manner such as giving the title of the invention or serial number of the application, if previously filed, (3) identify each inventor and his or her residence and country of citizenship, and (4) state whether the inventor is a sole or joint inventor of the claimed invention. Proposed paragraph 1.63(b) would further require the oath or declaration to state that the person signing the oath or declaration (1) has reviewed and understands the contents of the identified specification, (2) believes the named inventor is the original and first inventor, and (3) acknowledges the duty to disclose information which is material. Proposed paragraph (c) would require that any application in which a claim for foreign priority is made identify in the oath or declaration the first filed foreign application. Proposed paragraph 1.63(d) would require that the oath or declaration in a continuation-in-part application, which discloses and claims subject matter in addition to that disclosed in the prior copending application,

state that the person making the oath or declaration acknowledges the duty to disclose material information (including any foreign patenting, publication, or public use or sale in the United States of the subject matter of the prior application which occurred more than one year prior to the filing date of the continuation-in-part application).

Section 1.64 is proposed to be added to clearly indicate who must sign the oath or declaration of a patent application.

Section 1.65 is proposed to be deleted because the oath or declaration requirements set forth therein are covered by proposed §1.63.

Section 1.67, if amended as proposed, would delete all of present paragraphs (a) and (b) and substitute therefor new wording. Proposed paragraph 1.67(a) would indicate that a supplemental oath or declaration meeting the requirements of proposed §1.63 may be required to correct deficiencies or inaccuracies present in an earlier oath or declaration. Proposed paragraph 1.67(b) would require a supplemental oath or declaration to be filed (1) when a claim is presented embracing material not originally claimed and (2) when a subsequently filed oath or declaration under proposed §1.53(d) refers to an amendment which includes improper new matter. Proposed paragraph 1.67(b) would also clearly state the prohibition against entry of new matter after the filing date of the application.

Section 1.69, paragraph (b), if amended as proposed, would change the time at which a translation of a non-English language oath or declaration which has not been supplied by the Office must be filed. The current time period of two months after the filing date would be changed to two months after notification that a translation is required. The reference to §1.65 in paragraph 1.69(b), as proposed to be amended, would be changed to proposed §1.63.

Section 1.70, if amended as proposed, would merely refer to proposed §1.63 for the requirements to be met when an oath or declaration is filed under 35 U.S.C. 371(c)(4).

Section 1.77, if amended as proposed, would change paragraphs (h) and (i) to refer to the abstract of the disclosure and signed oath or declaration, respectively.

Section 1.97, if amended as proposed, would change the title from "prior art statement" to "material information disclosure statement". This proposed change is appropriate since the designation "material information disclosure statement" more accurately characterizes the nature and content of the information required to be disclosed to the Patent and Trademark Office pursuant to §1.56. Section 1.97, if amended as proposed, would also provide additional time for filing a material information disclosure statement if the filing receipt has not been received within three months of the filing date. If the filing receipt is not received within three months of the filing date, the disclosure statement should be submitted within two months after receiving the filing receipt.

Section 1.98, if amended as proposed, would indicate that material information disclosure statements should list prior art with all of the information which is required to print such citations on the front page of a patent.

Section 1.99, if amended as proposed, would change the title to be consistent with the proposed amendment to §1.97.

Section 1.101, if amended as proposed, would specifically indicate that applications which are to have their examination advanced pursuant to §1.102 will be taken up for examination out of order by the examiner.

Section 1.118, if amended as proposed, would designate the existing section as paragraph (a) and amend it to clearly state that no new matter may be introduced into an application and to make specific reference to proposed §§1.53, 1.63 and 1.67. Proposed new paragraph 1.118(b) would indicate how improper amendments which introduce new matter in the specification or claims will be handled by the examiner.

Section 1.123, if amended as proposed, would require all corrections to drawings to be made by bonded draftsmen at applicant's expense since the Office does not have sufficient draftsmen to make such corrections. Sketches of any desired corrections would, however, still require approval of the examiner.

Section 1.125, if amended as proposed, would relax the prohibition against substitute specifications which are not required by the examiner. The proposed section would, however, add the requirement that any substitute specification filed must be accompanied by a statement that the substitute specification includes no new matter. Under the proposed section the statement must be a verified statement if made by a person not registered to practice before the Office.

Section 1.131, if amended as proposed, would specifically refer to the use of affidavits or declarations under the section during reexamination of a patent. Under the section as proposed to be amended, the same person or persons who would make the affidavit or declaration in an application would be required to make the affidavit or declaration on behalf of the owner of the patent under reexamination.

Section 1.132, if amended as proposed, would specifically refer to the use of affidavits or declarations under the section during reexamination of a patent.

Section 1.137, if amended as proposed in paragraph (b), would except from the provisions of paragraph (b) those applications abandoned pursuant to proposed §1.53(d) because the fee, oath, or declaration and the surcharge were not submitted. Section 111 of Title 35, United States Code, as amended by Public Law 97-247, requires that any delay in submission of the fee and oath be shown to be unavoidable. Thus, paragraph (b) of §1.137 is inapplicable to the revival of applications which become abandoned pursuant to proposed §1.53(d).

Section 1.141, if amended as proposed, would revise the rule to more clearly define what inventions are considered to be separate inventions for purposes of requiring restriction. The changes would provide in the rules the criteria which has been used in the past and is currently being used to determine if claims to different categories of invention (i.e., product, process, method of making, method of use) are directed to a single inventive concept.

Section 1.153, if amended as proposed, would change the reference for oath and declaration requirements from §1.65 to proposed §1.63.

Section 1.154, if amended as proposed, would revise paragraph (e) to refer to the signed oath or declaration requirements of §1.153(b).

Section 1.162, if amended as proposed, would change the reference from current §1.65 to proposed §1.63.

Section 1.163, if amended as proposed, would change the wording of the section to clearly indicate that a signed oath or declaration is required rather than a signed specification.

Section 1.172, if amended as proposed, would clearly indicate that the reissue oath is signed and sworn to rather than the reissue application.

Section 1.174, if amended as proposed, would remove the requirement that photoprints of original drawings be securely mounted or pasted on sheets of drawing board because paper drawings are acceptable.

Section 1.175, if amended as proposed, would change the reference to the oath or declaration from §1.65 to proposed §1.63.

Sections 1.301, 1.302 and 1.303, if amended as proposed, would refer to the Court of Appeals for the Federal Circuit rather than to the Court of Customs and Patent Appeals.

Section 1.324, if amended as proposed, would include wording similar to that in proposed §1.48 for correction of inventorship in applications.

Section 1.325, if amended as proposed, would include reference to the reexamination procedure.

Section 1.335, if added as proposed, would provide a new section relating to the filing in the Patent and Trademark Office of notices of arbitration awards. Such filing is required under §294 of Title 35, United States Code, as added by Public Law 97-247.

Section 1.565, if amended as proposed, would add a paragraph (e) indicating that a patent owner who has a claim rejected on a United States patent which claims the same invention must file a reissue application, if appropriate, in order to seek an interference pursuant to §1.205. The rejection cannot be

overcome by an affidavit or declaration pursuant to §1.131. Proposed paragraph 1.565(e) also provides that the failure or refusal of the patent owner to file a reissue application in such circumstances shall be taken as a disclaimer of the invention covered by the claim under rejection and will result in cancellation of the claim in the reexamination certificate issued pursuant to 35 U.S.C. 307 and §1.570.

Section 5.12, if amended as proposed, would separate the section into two paragraphs. Proposed paragraph (a) would provide that the filing of an application for an invention made in the United States would be considered to include a petition for a license for foreign filing. If a license is granted, it will be indicated on the filing receipt. If it is not granted, no indication of the denial will appear. Failure to grant a license should be considered a denial of a first petition for a license. A subsequent petition may be filed under §5.12(b). Section 5.12(b) is essentially the text of §5.12 in its present form. No rights to file a petition for license are being removed.

Environmental, energy, and other considerations: The proposed rule change will not have a significant impact on the quality of the human environment or the conservation of energy resources.

The proposed rule change is in conformity with the requirements of the Regulatory Flexibility Act. (Pub. L. 96-354), Executive Order 12291, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et. seq.

The rule change will not have a significant adverse economic impact on a substantial number of small entities (Regulatory Flexibility Act. Pub. L. 96-354) for several reasons. Public Law 96-517 and 97-247 have both taken into consideration the impact they may have on small entities. In general, the rule change will also expedite proceedings before the Patent and Trademark Office, changing existing procedures where they can be simplified.

The Patent and Trademark Office has determined that this rule change is not a major rule under Executive Order 12291. The annual effect on the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

This rule change will not impose a burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et. seq., since no significant additional record keeping or reporting requirements are placed upon the public. In fact, some paperwork, especially that related to requests for extensions of time, will be reduced.

List of Subjects in 37 CFR Parts 1 and 5

Administrative practice and procedure, Courts, Inventions and patents.

Notice is hereby given that, pursuant to the authority granted to the Commissioner of Patents and Trademarks by 35 U.S.C. 6 and Public Law 97-247, the Patent and Trademark Office proposes to amend Title 37 of the Code of Federal Regulations as set forth below.

It is proposed to amend 37 CFR, Parts 1 and 5, as follows with deletions indicated by brackets and additions by arrows.

1. Section 1.4 is proposed to be amended by revising paragraph (a) to read as follows:

§1.4 Nature of correspondence.

(a) Correspondence with the Patent and Trademark Office comprises: (1) correspondence relating to services and facilities of the Office, such as general inquiries, requests for publications supplied by the Office, orders for printed copies of patents or trademark registrations, orders for copies of records, transmission of assignments for recording, and the like, and (2) correspondence in and relating to a particular application or other proceeding in the Office. See particularly the rules relating to the filing, processing, or other proceedings of national applications in Subpart B, §§1.31 to 1.352; of international applications in Subpart C, §§1.401 to 1.482; ▶ of reexamination of patents in Subpart D, §§1.501 to 1.570; ◀ and of [Trademark] ▶ trademark ◀ applications §§2.11 to 2.189.

* * * * *

2. Section 1.6 is proposed to be revised to read as follows:

§1.6 Receipt of letters and papers.

(a) Letters and other papers received in the Patent and Trademark Office are stamped with the date of receipt. No papers are received in the Patent and Trademark Office on Saturdays, Sundays or ▶ federal ◀ holidays within the District of Columbia.

(b) Mail placed in the Patent and Trademark Office pouch up to midnight on weekdays, excepting Saturdays and ▶ federal ◀ holidays, by the post office at Washington, D. C., serving the Patent and Trademark Office is considered as having been received in the Patent and Trademark Office on the day it was so placed in the pouch.

(c) In addition to being mailed or delivered by hand during office hours, letters and other papers may be deposited up to midnight in a box provided at the guard's desk at the lobby of building 3 of the Patent and Trademark Office at Crystal Plaza, Arlington, Virginia and at the main entrance ▶ (14th Street) ◀ of the Department of Commerce Building, Washington, D. C., on weekdays except Saturdays and ▶ federal ◀ holidays, and all papers deposited therein are considered as received in the Patent and Trademark Office on the day of deposit.

▶ (d) If interruptions or emergencies in the United States Postal Service which have been so designated by the Commissioner occur, the Patent and Trademark Office will consider as filed on a particular date in the Office any paper or fee which is (1) promptly filed after the ending of the designated interruption or emergency and (2) accompanied by a statement indicating that such paper or fee would have been filed on that particular date if it were not for the designated interruption or emergency in the Postal Service. Such statement must be a verified statement if made by a person not registered to practice before the Patent and Trademark Office. ◀

3. Section 1.7 is proposed to be revised to read as follows:

§1.7 Times for taking action: Expiration on Saturday, Sunday or ▶ federal ◀ holiday.

Whenever periods of time are specified in this part in days, calendar days are intended. When the day, or the last day fixed by statute or by or under this part for taking any action or paying any fee in the Patent and Trademark Office falls on Saturday, Sunday, or on a ▶ federal ◀ holiday within the District of Columbia, the action may be taken, or the fee paid, on the next succeeding day which is not a Saturday, Sunday, or a ▶ federal ◀ holiday. See §1.304 for time for appeal or for commencing civil action.

4. Section 1.8 is proposed to be amended by revising paragraph (a) to read as follows:

§1.8 Certificate of mailing.

(a) Except in the cases enumerated below, papers and fees required to be filed in the Patent and Trademark Office within a set period of time will be considered as being timely filed if: (1) they are addressed to the Commissioner of Patents and Trademarks, Washington, D. C. 20231, and deposited with the U.S. Postal Service with sufficient postage as first class mail prior to expiration of the set period, and (2) they are accompanied by a certificate stating the date of deposit [(see forms, §§3.55 and 4.23)]. The person signing the certificate should have reasonable basis to expect that the correspondence would be mailed on or before the date indicated[, the] ▶ . The ◀ actual date of receipt of the paper or fee will be used for all other purposes. This procedure does not apply to the following:

(i) The filing of ▶ a ◀ national ▶ application specification and drawing or other papers for the purpose of obtaining an application filing date; ◀ [applications for patents;]

* * *

(viii) The filing of a notice of election to proceed by civil action in an inter partes proceeding under 35 U.S.C. 141 or section 21(a)(1) of the Trademark Act, 15 U.S.C. 1071(a)(1), in response to another party's appeal to the ▶ Court of Appeals for the Federal Circuit ◀ [Court of Customs and Patent Appeals];

* * * * *

5. A new section 1.10 is proposed to be added to read as follows:

▶ §1.10 Filing of papers and fees by Express Mail with certificate.

(a) Any paper or fee to be filed in the Patent and Trademark Office can be filed utilizing the Express Mail Post Office to Addressee Service of the United States Postal Service and be considered as having been filed in the Office on the date the paper or fee is shown to have been deposited as Express Mail with the United States Postal Service.

(b) Any paper or fee filed by Express Mail must have the number of the Express Mail mailing label placed thereon prior to mailing, be addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231, and must be accompanied by a certificate of express mailing which states the date of express mailing and is signed by the person mailing the paper or fee.

(c) The Office will accept the certificate of express mailing and accord the paper or fee the certificate date under 35 U.S.C. 21(a) without further proof of the date on which the express mailing occurred if the paper or fee is received in the Office on the first day the Office receives papers or fees following the certificate date. If more than one day has elapsed between the certificate date and the Office receipt date the person mailing the paper or fee may be required to file a copy of the Express Mail receipt showing the actual date of mailing and an affidavit or declaration from the person who mailed the paper or fee averring to the fact that the mailing occurred on the date certified. ◀

6. Section 1.17 is proposed to be amended by revising paragraph (h) to read as follows:

§1.17 Patent application processing fees.

* * *

(h) For filing a petition to the Commissioner under a section of this part listed below which refers to this paragraph--$120.00

[--§1.45--for correction of inventorship]
--§1.47--for filing by other than all the inventors or a person not the inventor
▶ --§1.48--for correction of inventorship ◀
--§1.182-for decision on questions not specifically provided for
--§1.183-to suspend the rules
--§1.268-for late filing of interference settlement agreement

* * * * *

7. Section 1.22 is proposed to be revised to read as follows:

§1.22 Fees payable in advance.

▶(a)◀ Fees and charges payable to the Patent and Trademark Office are required to be paid in advance, that is, at the time of [making application for] ▶ requesting ◀ any action by the Office for which a fee or charge is payable ▶ with the exception that under §1.53 applications for patent may be assigned a filing date without payment of the basic filing fee ◀.

▶(b) All fees paid to the Patent and Trademark Office should be itemized in each individual application, patent or other proceeding in such a manner that it is clear for which purpose the fees are paid.◀

8. Section 1.24 is proposed to be revised to read as follows:

§1.24 Coupons.

Coupons in denominations of [forty cents and] one dollar are sold by the Patent and Trademark Office for the convenience of regular purchasers of U.S. patents and trademark registrations; these coupons may not be used for any other purpose. [The 40-cent coupons are sold individually and in books of 50 with stubs for record for $20.] The one dollar coupons are sold individually and in books of 50 with stubs for record for $50. These coupons are good until used; they may be transferred but cannot be redeemed.

9. Section 1.41 is proposed to be revised to read as follows:

§1.41 Applicant for patent.

(a) A patent must be applied for ▶ in the name of the actual inventor or inventors. Full names must be stated, including the family name and at least one given name without abbreviation together with any other given name or initial. ◀ [and the application papers must be signed and the necessary oath or declaration executed by the actual inventor in all cases, except as provided by §§1.42, 1.43, and 1.47. (See §1.60)]

(b) Unless the contrary is indicated the word "applicant" when used in these sections refers to the inventor[,] ▶ or ◀ joint inventors who ▶ are applying ◀ [have applied] for a patent, or to the person mentioned in §§1.42, 1.43, or 1.47 who ▶ is applying ◀ [has applied] for a patent in place of the inventor.

▶(c) Any person authorized by the applicant may file an application for patent on behalf of the inventor or inventors, but an oath or declaration for the application (§1.63) can only be made in accordance with §1.64.◀

▶(d) A showing may be required from the person filing the application that the filing was authorized where such authorization comes into question.◀

10. Section 1.42 is proposed to be revised to read as follows:

§1.42 When the inventor is dead.

In case of the death of the inventor, the legal representative (executor, administrator, etc.) of the deceased inventor may [sign the application papers and] make the necessary oath or declaration, and apply for and obtain the patent. Where the inventor dies during the time intervening between the filing of [his] ▶ the ◀ application and the granting of a patent thereon, the letters patent may be issued to the legal representative upon proper intervention [by him].

11. Section 1.43 is proposed to be revised to read as follows:

§1.43 When the inventor is insane or legally incapacitated.

In case an inventor is insane or otherwise legally incapacitated, the legal representative (guardian, conservator, etc.) of such inventor may [sign the application papers and] make the necessary oath or declaration, and apply for and obtain the patent.

12. Section 1.45 is proposed to be amended by deleting paragraphs (b) and (c) and the designation (a) to the first paragraph to read as follows:

§1.45 Joint inventors.

[(a)] Joint inventors must apply for a patent jointly and each must [sign the application papers and] make the required oath or declaration: neither of them alone, nor less than the entire number, can apply for a patent for an invention invented by them jointly, except as provided in §1.47.

[(b) If an application for patent has been made through error and without any deceptive intention by two or more persons as joint inventors when they were not in fact joint inventors, the application may be amended to remove the names of those not inventors upon filing of a petition including a statement of the facts verified by all of the original applicants, the required fee (§1.17(h)), and an oath or declaration as required by §1.65 by the applicant who is the actual inventor, provided the amendment is diligently made. Such amendment must have the written consent of any assignee.]

[(c) If an application for patent has been made through error and without any deceptive intention by less than all the actual joint inventors, the application may be amended to include all the joint inventors upon filing of a petition including a statement of the facts verified by, and an oath or declaration as required by §1.65 executed by all the actual joint inventors, along with the required fee (§1.17(h)), provided the amendment is diligently made. Such amendment must have the written consent of any assignee.]

13. Section 1.46 is proposed to be revised to read as follows:

§1.46 Assigned inventions and patents.

In case the whole or a part interest in the invention or in the patent to be issued is assigned, the application must still be made ▶ or authorized to be made and an oath or declaration signed ◀

by the inventor or one of the persons mentioned in §§1.42, 1.43, or 1.47. However, the patent may be issued to the assignee or jointly to the inventor and the assignee as provided in §1.334.

14. Section 1.47 is proposed to be revised to read as follows:

§1.47 Filing when an inventor refuses to sign or cannot be reached.

(a) If a joint inventor refuses to join in an application for patent or cannot be found or reached after diligent effort, the application may be made by the other inventor on behalf of himself or herself and the omitted inventor. The oath or declaration in such an application must be accompanied by a petition including proof of the pertinent facts and by the required fee (§1.17(h)) and must state the last known address of the omitted inventor. The Patent and Trademark Office shall forward notice of the filing of the application to the omitted inventor at said address. Should such notice be returned to the Office undelivered, or should the address of the omitted inventor be unknown, notice of the filing of the application shall be published in the Official Gazette. The omitted inventor may subsequently join in the application on filing an oath or declaration of the character required by §[1.65] ▶ 1.63 ◀. A patent may be granted to the inventor making the application, upon a showing satisfactory to the Commissioner, subject to the same rights which the omitted inventor would have had if he or she had been joined.

(b) Whenever an inventor refuses to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom the inventor has assigned or agreed in writing to assign the invention or who otherwise shows sufficient proprietary interest in the matter justifying such action may make application for patent on behalf of and as agent for the inventor. The oath or declaration in such an application must be accompanied by a petition including proof of the pertinent facts and a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage, and by the required fee (§1.17(h)) and must state the last known address of the inventor. The assignment, written agreement to assign or other evidence of proprietary interest, or a verified copy thereof, must be filed in the Patent and Trademark Office. The Office shall forward notice of the filing of the application to the inventor at the address stated in the application. Should such notice be returned to the Office undelivered, or should the address of the inventor be unknown, notice of the filing of the application shall be published in the Official Gazette. The inventor may subsequently join in the application on filing an oath or declaration of the character required by §[1.65] ▶ 1.63 ◀. A patent may be granted to the inventor upon a showing satisfactory to the Commissioner.

15. A new section 1.48 is proposed to be added to read as follows:

▶ §1.48 Correction of inventorship.

If the correct inventor or inventors are not named in an application for patent through error without any deceptive intention, the application may be amended to name only the actual inventor or inventors. Such amendment must be diligently made and must be accompanied by (1) a petition including a statement of facts verified by the original named inventor or inventors establishing when the error without deceptive intention was discovered and how it occurred; (2) an oath or declaration by each actual inventor or inventors as required by §1.63; (3) the fee set forth in §1.17(h); and (4) the written consent of any assignee.◀

16. Section 1.51 is proposed to be amended by revising paragraphs 1.51(a)(2) and (b) to read as follows:

§1.51 General requisites of an application.

(a) * * *

(2) An oath or declaration, see §§[1.65] ▶ 1.63 ◀ and 1.68.

* * * * *

(b) Applicants are encouraged to file a [prior art] ▶ material information disclosure ◀ statement [at the time of filing the application or within three months thereafter]. See §§1.97 through 1.99.

17. Section 1.52 is proposed to be amended by revising paragraph (c) to read as follows:

§1.52 Language, paper, writing, margins.

* * * * *

(c) Any interlineation, erasure, [or] cancellation or other alteration of the application papers [as] filed must ▶ be ◀ [have been] made before the ▶ signing of any accompanying oath or declaration pursuant to §1.63 referring to those application papers and should be dated and initialed or signed by the applicant on the same sheet of paper. No such alterations in the application papers are permissible after the signing of an oath or declaration referring to those application papers (§1.56(c)). After the signing of the oath or declaration referring to the application papers amendments may only be made in the manner provided by §§1.121 and 1.123-1.125. ◀ [application was signed and sworn to or declaration made, and should be dated and initialed or signed by the applicant in a marginal note or footnote on the same sheet of paper to indicate such fact. No such alterations are permissible after execution of the application papers. (See §1.56.)]

* * * * *

18. Section 1.53 is proposed to be revised to read as follows:

§1.53 ▶ Serial number, filing date, and completion of application ◀ [Application accepted and filed for examination only when complete].

(a) ▶ Any application for a patent received in the Patent and Trademark Office will be assigned a serial number for identification purposes ◀ [An application for a patent will not be accepted and placed upon the files for examination until all its required parts, complying with the rules relating thereto, are received, except that certain minor informalities may be waived subject to subsequent correction whenever required].

(b) ▶ The filing date of an application for patent is the date on which (1) a specification containing a description pursuant to §1.71 and at least one claim pursuant to §1.75, and (2) any drawing required by §1.81(a), are received in the Patent and Trademark Office. No new matter may be introduced into an application after its filing date (§1.118). ◀ [If the papers and parts are incomplete, or so defective that they cannot be accepted as a complete application for examination, the applicant will be notified; the papers will be held six months for completion and, if not by then completed, will thereafter be returned or otherwise disposed of; the fee, if submitted, will be refunded.]

▶ (c) If any application is received without the specification or drawing required by paragraph (b) of this section, applicant will be so notified and given a time period within which to submit the omitted specification or drawing in order to obtain a filing date as of the date of receipt of such submission. If the omission is not corrected within the time period set, the application will be returned or otherwise disposed of; the fee, if submitted, will be refunded less a $50.00 handling fee. ◀

▶ (d) If an application which has been accorded a filing date pursuant to paragraph (b) of this section does not include the appropriate filing fee or an oath or declaration by the applicant, applicant will be so notified and given a period of time within which to file the fee, oath, or declaration and to pay the surcharge as set forth in §1.16(e) in order to prevent abandonment of the application. The notification pursuant to this paragraph may be made simultaneously with any notification pursuant to paragraph (c) of this section. ◀

▶ (e) An application for a patent will not be placed upon the files for examination until all its required parts, complying with the rules relating thereto, are received, except that certain minor informalities may be waived subject to subsequent correction whenever required. ◀

▶ (f) The filing date of an international application designating the United States of America shall be treated as the filing date in the United States of America under PCT Article 11(3), except as provided in 35 U.S.C. 102(e). ◀

19. Section 1.54 is proposed to be revised to read as follows:

§1.54 Parts of application to be filed together ▶ ; filing receipt ◀ .

▶ (a) ◀ It is desirable that all parts of the complete application be deposited in the Office together; otherwise a letter must accompany each part, accurately and clearly connecting it with the other parts of the application. ▶ See §1.53 with regard to completion of an application. ◀

▶ (b) Applicant will be informed of the application serial number and filing date by a filing receipt. ◀

20. Section 1.55 is proposed to be revised to read as follows:

§1.55 ▶ Claim for foreign priority ◀ [Serial number and filing date of application].

[(a) Complete applications are numbered in regular order, and the applicant will be informed of the serial number and filing date of the application by a filing receipt. The filing date of the application is the date on which the complete application, acceptable for placing on the files for examination is received in the Patent and Trademark Office; or the date on which the last part completing such application is received in the case of an incomplete or defective application completed within six months.]

[(b)] ▶ (a) ◀ An applicant may claim the benefit of the filing date of a prior foreign application under the conditions specified in 35 U.S.C. 119. The claim to priority need be in no special form and may be made by the attorney or agent if the foreign application is referred to in the oath or declaration as required by [§1.65] ▶ §1.63 ◀ . The claim for priority and the certified copy of the foreign application specified in the second paragraph of 35 U.S.C. 119 must be filed in the case of interference (§1.224); when necessary to overcome the date of a reference relied upon by the examiner; or when specifically required by the examiner; and in all other cases they must be filed not later than the date the issue fee is paid. If the papers filed are not in the English language, a translation need not be filed except in the three particular instances specified in the preceding sentence, in which event a sworn translation or a translation certified as accurate by a sworn or official translator must be filed. If the priority papers are submitted after the date the issue fee is paid, they must be accompanied by a petition requesting their entry and the fee set forth in §1.17(i).

[(c)] ▶ (b) ◀ An applicant may under certain circumstances claim priority on the basis of an application for an inventor's certificate in a country granting both inventor's certificates and patents. When an applicant wishes to claim the right of priority as to a claim or claims of the application on the basis of an application for an inventor's certificate in such a country under 35 U.S.C. 119, last paragraph (as amended July 28, 1972), the applicant or his attorney or agent, when submitting a claim for such right as specified in paragraph (b) of this section, shall include an affidavit or declaration including a specific statement that, upon an investigation, he ▶ or she ◀ has

satisfied himself ▶or herself ◀ that to the best of his ▶ or her ◀ knowledge the applicant, when filing his ▶ or her ◀ application for the inventor's certificate, had the option to file an application either for a patent or an inventor's certificate as to the subject matter of the identified claim or claims forming the basis for the claim of priority.

[(d) The filing date of an international application designating the United States of America shall be treated as the filing date in the United States of America under PCT Article 11(3), except as provided in 35 U.S.C. 102(e).]

21. Section 1.56 is proposed to be amended by revising paragraph (c) to read as follows:

§1.56 Duty of disclosure; striking of applications.

* * * * *

(c) Any application may be stricken from the files if: (1) [Signed or sworn to] ▶ An oath or declaration pursuant to §1.63 is signed ◀ in blank, or without actual inspection ▶ and review ◀ by the applicant ▶ as required by §1.63(b) ◀ ; or (2) ▶ If application papers filed in the Office are altered ◀ [Altered or partly filled in] after ▶ the signing of an oath or declaration pursuant to §1.63 referring to those application papers ◀ [being signed or sworn to].

* * * * *

22. Section 1.57 is proposed to be removed.

[§1.57 Signature.

(a) The application must be signed by the applicant in person. The signature to the oath or declaration under §1.65 will be accepted as the signature to the application provided the oath or declaration under §1.65 is attached to and refers to the specification and claims to which it applies. Otherwise the signature must appear at the end of the specification after the claims.

(b) The signature to the oath or declaration under §1.70 will be accepted as the signature to the application provided the oath or declaration under §1.70 specifically refers to the specification and claims to which it applies.

(c) Full names must be given, including at least one given name without abbreviation together with any other given name or initial.]

23. Section 1.59 is proposed to be revised to read as follows:

§1.59 Papers of [complete] application ▶ with filing date ◀ not to be returned.

Papers in [a complete] ▶ an ◀ application ▶ which has received a filing date pursuant to §1.53 ◀ [, including the drawings,] will

not be returned for any purpose whatever. If applicants have not preserved copies of the papers, the Office will furnish copies at the usual cost.

24. Section §1.60 is proposed to be revised to read as follows:

§1.60 ▶ Continuation or divisional ◀ [Continuing] application for invention disclosed and claimed in a prior application.

A continuation or divisional application (filed under the conditions specified in 35 U.S.C. 120 or 121), which discloses and claims only subject matter disclosed in a prior application may be filed as a separate application before the patenting or abandonment of or termination of proceedings on the prior application. If the application papers comprise a copy of the prior application as filed, signing and execution by the applicant may be omitted provided the copy [either] is [prepared and certified by the Patent and Trademark Office or is prepared] ▶ supplied ◀ by the applicant and verified by an affidavit or declaration by the applicant,▶ or ◀ his ▶ or her ◀ attorney or agent, stating that it is a true copy of the prior application as filed. [Certification may be omitted if the copy is prepared by and does not leave the custody of the Patent and Trademark Office.] Only amendments reducing the number of claims or adding a reference to the prior application (§1.78(a)) will be entered before calculating the filing fee and granting the filing date.

25. A new section 1.63 is proposed to be added to read as follows:

▶ §1.63 Oath or declaration.

(a) An oath or declaration filed under §1.51(a)(2) as a part of an application must

(1) be executed in accordance with either §1.66 or §1.68;

(2) identify the specification to which it is directed;

(3) identify each inventor and the residence and country of citizenship of each inventor; and

(4) state whether the inventor is a sole or joint inventor of the invention claimed.

(b) In addition to meeting the requirements of paragraph (a), the oath or declaration must state that the person making the oath or declaration

(1) has reviewed and understands the contents of the specification, including the claims, as amended by any amendment specifically referred to in the oath or declaration;

(2) believes the named inventor or inventors to be the original and first inventor or inventors of the subject matter which is claimed and for which a patent is sought; and

(3) acknowledges the duty to disclose information which is material to the examination of the application in accordance with §1.56(a).

(c) In addition to meeting the requirements of paragraphs (a) and (b) of this section, the oath or declaration in any application in which a claim for foreign priority is made pursuant to §1.55 must identify the first filed foreign application for patent or inventor's certificate by specifying the application number, country, day, month and year of its filing.

(d) In any continuation-in-part application filed under the conditions specified in 35 U.S.C. 120 which discloses and claims subject matter in addition to that disclosed in the prior copending application, the oath or declaration must also state that the person making the oath or declaration acknowledges the duty to disclose material information (including any foreign patenting, publication, or public use or sale in the United States of the subject matter of the prior application which occurred more than one year prior to the national or PCT international filing date of the continuation-in-part application).◀

26. A new section 1.64 is proposed to be added to read as follows:

▶ §1.64 Person making oath or declaration.

(a) The oath or declaration must be made by all of the actual inventors except as provided for in §§1.42, 1.43, or 1.47.

(b) If the person making the oath or declaration is not the inventor (§§1.42, 1.43, or 1.47), the oath or declaration shall state the relationship of the person to the inventor and, upon information and belief, the facts which the inventor is required to state.◀

27. Section 1.65 is proposed to be removed.

[§1.65 Oath or declaration.

(a)(1) The applicant, if the inventor, must state that he verily believes himself to be the original and first inventor or discoverer of the process, machine, manufacture, composition of matter, or improvement thereof, for which he solicits a patent; that he does not know and does not believe that the same was ever known or used in the United States before his invention or discovery thereof, and shall state of what country he is a citizen and where he resides and whether he is a sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States more than one year prior to his application or patented or described in any printed publication in any country before his invention or more than one year prior to his application, or patented or made the subject of an inventor's certificate in any foreign country prior to the

date of his application on an application filed by himself or his legal representatives or assigns more than twelve months prior to his application in this country. He must acknowledge a duty to disclose information he is aware of which is material to the examination of the application. He shall state whether or not any application for patent or inventor's certificate on the same invention has been filed in any foreign country, either by himself, or his legal representatives or assigns. If any such application has been filed, the applicant shall name the country in which the earliest such application was filed, and shall give the day, month, and year of its filing; he shall also identify by country and by day, month, and year of filing, every such foreign application filed more than twelve months before the filing of the application in this country.

(2) This statement (i) must be subscribed to by the applicant, and (ii) must either (a) be sworn to (or affirmed) as provided in §1.66, or (b) include the personal declaration of the applicant as prescribed in §1.68. See §1.153 for design cases and §1.162 for plant cases.

(b) If the application is made as provided in §§1.42, 1.43, or 1.47, the applicant shall state his relationship to the inventor and, upon information and belief, the facts which the inventor is required by this section to state.

(c) An additional statement may be required if the application has not been filed in the Patent and Trademark Office within a reasonable time after execution of the original statement.]

28. Section 1.67 is proposed to be revised to read as follows:

§1.67 Supplemental oath or declaration [for matter not originally claimed].

(a) ▶ A supplemental oath or declaration meeting the requirements of §1.63 may be required to be filed to correct any deficiencies or inaccuracies present in an earlier filed oath or declaration. ◀ [When an applicant presents a claim for matter originally shown or described but not substantially embraced in the statement of invention or claim originally presented, he shall file a supplemental oath or declaration to the effect that the subject matter of the proposed amendment was part of his invention: That he does not know and does not believe that the same was ever known or used in the United States before his invention or discovery thereof, or patented or described in any printed publication in any country before his invention or discovery thereof, or more than one year before his application, or in public use or on sale in the United States for more than one year before the date of his application, that said invention has not been patented or made the subject of an inventor's certificate in any foreign country prior to the date of his application in this country on an application filed by himself or his legal representatives or assigns more than twelve months prior to his application in the United States, and has not been abandoned. Such supplemental oath or declaration should accompany and properly identify the proposed amendment, otherwise the proposed amendment may be refused consideration.]

(b) ▶ A supplemental oath or declaration meeting the requirements of §1.63 must be filed (1) when a claim is presented for matter originally shown or described but not substantially embraced in the statement of invention or claims originally presented, and (2) when an oath or declaration submitted in accordance with §1.53(d) after the filing of the specification and any required drawings specifically and improperly refers to an amendment which includes new matter. No new matter may be introduced into an application after its filing date even if a supplemental oath or declaration is filed (§1.53(b); §1.118).◀ In proper cases the oath or declaration here required may be made on information and belief by an applicant other than inventor.

29. Section 1.69 is proposed to be amended by revising paragraph (b) to read as follows:

§1.69 Foreign language oaths and declarations.

* * * * *

(b) Unless the text of any oath or declaration in a language other than English is a form provided or approved by the Patent and Trademark Office, it must be accompanied by a verified English translation, except that in the case of an oath or declaration filed under [§1.65] ▶ §1.63◀, the translation may be filed in the Office no later than two months [after the filing date] ▶ from the date applicant is notified to file the translation◀.

30. Section 1.70 is proposed to be amended by revising paragraph (a) to read as follows:

§1.70 Content of oath or declaration [relating to content of and amendment to an application] under 35 U.S.C. 371(c)(4).

(a)[(1)] When an applicant of an international application, if the inventor, desires to enter the national stage under 35 U.S.C. 371, he or she must ▶ file an oath or declaration in accordance with §1.63 ◀ [specifically identify the international application and any amendments thereto and state that he or she has reviewed the referred to application and any amendments, and that he or she verily believes himself or herself to be the original and first inventor or discoverer of the process, machine, manufacturer, composition of matter, or improvement thereof, for which he or she solicits a patent; that he or she does not know and does not believe that the same was ever known or used in the United States of America before his or her invention or discovery thereof, and shall state of what country he or she is a citizen and where he or she resides and whether he or she is a sole or joint inventor of the invention claimed in his or her international application as filed or as amended. In every application the applicant must distinctly state that to the best of his or her knowledge and belief the invention has not been in public use or on sale in the United States of America more than one year prior to his or her international application, or patented or described in any printed publication in any country before his or her invention or more than one year prior to his or her international application, or patented or made the subject of

an inventor's certificate in any foreign country prior to the date of his or her international application on an application filed by himself or herself or his or her legal representatives or assigns more than twelve months prior to his or her international application. He or she must acknowledge a duty to disclose information he or she is aware of which is material to the examination of the application. He or she shall state whether or not any application for patent or inventor's certificate on the same invention has been filed in any foreign country, either by himself or herself, or by his or her legal representatives or assigns. If any such application has been filed, the applicant shall name the country in which the earliest such application was filed, and shall give the day, month, and year of its filing; he or she shall also identify by country and by day, month, and year of filing, every such foreign application filed more than twelve months before the filing of the international application].

[(2) This statement (i) must be subscribed to by the applicant, and (ii) must either (a) be sworn to (or affirmed) as provided in §1.66, or (b) include the personal declaration of the applicant as prescribed in §1.68.]

* * * * *

31. Section 1.77 is proposed to be amended by revising paragraphs (h) and (i) to read as follows:

§1.77 Arrangement of application elements.

The elements of the application should appear in the following order:

* * * * *

(h) [Signature. (See §1.57)] ▶ Abstract of the disclosure. ◀
(i) [Abstract of the disclosure.] ▶ Signed oath or declaration. ◀

* * * * *

32. Section 1.97 is proposed to be revised to read as follows:

§1.97 Filing of ▶ material information disclosure ◀ [prior art] statement.

(a) As a means of complying with the duty of disclosure set forth in §1.56, applicants are encouraged to file a ▶ material information disclosure◀[prior art] statement at the time of filing the application or within three months thereafter ▶ if the filing receipt has been received. If the filing receipt has not been received within three months after the time of filing, the disclosure statement should be submitted within two months after receiving the filing receipt. If filed separately, the disclosure statement should include the Group Art Unit to which the application is assigned as indicated on the filing receipt◀. The statement may either be separate from the specification or may be incorporated therein.

(b) The statement shall serve as a representation that the ▶ material information ◀ [prior art] listed therein includes, in the opinion of the person filing it, ▶ all of the material information ◀ [the closest prior art] of which that person is aware; the statement shall not be construed as a representation that a search has been made or that no ▶ other material information ◀ [better art] exists.

33. Section 1.98 is proposed to be amended by revising paragraph (a) to read as follows:

§1.98 Content of ▶ material information disclosure ◀ [prior art] statement.

(a) Any statement filed under §1.97 or §1.99 shall include: (1) A listing of patents, publications or other information and (2) a concise explanation of the relevance of each listed item. The statement shall be accompanied by a copy of each listed patent or publication or other item of information in written form or of at least the portions thereof considered by the person filing the statement to be pertinent. ▶ All United States patents listed should be identified by their patent numbers, patent dates and names of the patentees. Each foreign published application or patent should be cited by identifying the country or office which issued it, the document number and publication date. Each printed publication should be identified by author (if any), title, date, pages and place of publication. ◀

* * * * *

34. Section 1.99 is proposed to be revised to read as follows:

§1.99 Updating of ▶ material information disclosure ◀ [prior art] statement.

If prior to issuance of a patent an applicant, pursuant to his ▶ or her ◀ duty of disclosure under §1.56, wishes to bring to the attention of the Office additional patents, publications or other information not previously submitted, the additional information should be submitted to the Office with reasonable promptness. It may be included in a supplemental ▶ material information disclosure ◀ [prior art] statement or may be incorporated into other communications to be considered by the examiner. Any transmittal of additional information shall be accompanied by explanations of relevance and by copies in accordance with the requirements of §1.98.

35. Section 1.101 is proposed to be amended by revising paragraph (a) to read as follows:

§1.101 Order of examination.

(a) Applications filed in the Patent and Trademark Office and accepted as complete applications [(§§1.53 and 1.55)] are assigned for examination to the respective examining groups having the classes of inventions to which the applications relate. Applications shall be taken up for examination by the examiner to whom they have been assigned in the order in which

they have been filed except for ▶ those applications in which examination has been advanced pursuant to §1.102 and ◀ those applications in which the Office has accepted a request ▶ for waiver of patent rights ◀ filed under §1.139 ▶ which are not examined on the merits ◀.

* * * * *

36. Section 1.118 is proposed to be revised to read as follows:

§1.118 Amendment of disclosure.

▶ (a) No amendment shall introduce new matter into the disclosure of an application after the filing date of the application (§1.53(b)). All amendments to the specification, including the claims, and the drawings filed after the filing date of the application ◀ [In original applications, all amendments of the drawings or specifications, and all additions thereto,] must conform to at least one of them as it was at the time of the filing of the application. Matter not found in either, involving a departure from or an addition to the original disclosure, cannot be added to the application ▶ after its filing date ◀ even though supported by [a supplemental oath, and can be shown or claimed only in a separate application] ▶ an oath or declaration in accordance with §1.63 or §1.67 filed after the filing date of the application ◀.

▶ (b) If it is determined that an amendment filed after the filing date of the application introduces new matter, claims containing new matter will be rejected and deletion of the new matter in the specification and drawings will be required even if the amendment is accompanied by an oath or declaration in accordance with §1.63 or §1.67. ◀

37. Section 1.123 is proposed to be revised to read as follows:

§1.123 Amendments to the drawing.

[(a)] No change in the drawing may be made except by permission of the Office. Permissible changes in the construction shown in any drawing may be made only by [the Office.]. ▶ bonded draftsmen, at applicant's expense. ◀ A sketch in permanent ink showing proposed changes, to become part of the record, must be filed ▶ for approval by the examiner ◀. The paper requesting amendments to the drawing should be separate from other papers.

[(b) Substitute drawings will not ordinarily be admitted in any case unless required by the Office.]

38. Section 1.125 is proposed to be revised to read as follows:

§1.125 Substitute specification.

If the number or nature of the amendments shall render it difficult to consider the case, or to arrange the papers for printing or copying, the examiner may require the entire specification or claims, or any part thereof, to be rewritten.

A substitute specification ▶ may ◀ [will ordinarily] not be accepted unless it has been required by the examiner ▶ or unless it is clear that acceptance of a substitute specification would facilitate processing of the application. Any substitute specification filed must be accompanied by a statement that the substitute specification includes no new matter. Such statement must be a verified statement if made by a person not registered to practice before the Office.◀

39. Section 1.131 is proposed to be amended by revising paragraph (a) to read as follows:

§1.131 Affidavit or declaration of prior invention to overcome cited patent or publication.

(a) When any claim of an application ▶ or a patent under reexamination ◀ is rejected on reference to a domestic patent which substantially shows or describes but does not claim the rejected invention, or on reference to a foreign patent or to a printed publication, and the applicant ▶ or the owner of the patent under reexamination ◀ shall make oath or declaration as to facts showing a completion of the invention in this country before the filing date of the application on which the domestic patent issued, or before the date of the foreign patent, or before the date of the printed publication, then the patent or publication cited shall not bar the grant of a patent to the applicant ▶ or the confirmation of the patentability of the claims of the patent ◀, unless the date of such patent or printed publication [be] ▶ is ◀ more than one year prior to the date on which the ▶ applicant's or patent owner's ◀ application was filed in this country.

* * * * *

40. Section 1.132 is proposed to be revised to read as follows:

§1.132 Affidavits or declarations traversing grounds of rejection.

When any claim of an application ▶ or a patent under reexamination ◀ is rejected on reference to a domestic patent which substantially shows or describes but does not claim the invention, or on reference to a foreign patent, or to a printed publication, or to facts within the personal knowledge of an employee of the Office, or when rejected upon a mode or capability of operation attributed to a reference, or because the alleged invention is held to be inoperative or lacking in utility, or frivolous or injurious to public health or morals, affidavits or declarations traversing these references or objections may be received.

41. Section 1.137 is proposed to be amended by revising paragraph (b) to read as follows:

§1.137 Revival of abandoned application.

* * * * *

(b) An application unintentionally abandoned for failure to prosecute ▶, except pursuant to §1.53(d),◀ may be revived as a pending application if the delay was unintentional. A petition to revive an unintentionally abandoned application must be filed within one year of the date on which the application became abandoned or be filed within three months of the date of the first decision on a petition to revive under paragraph (a) of this section which was filed within one year of the date of abandonment of the application. A petition to revive an unintentionally abandoned application must be accompanied by (1) a statement that the abandonment was unintentional, (2) a proposed response unless it has been previously filed, and (3) a petition fee as set forth in §1.17(m). Such statement must be a verified statement if made by a person not registered to practice before the Patent and Trademark Office. The Commissioner may require additional information where there is a question whether the abandonment was unintentional. The three month period set forth in this paragraph may be extended under the provisions of §1.136(a), but no further extensions under §1.136(b) will be granted. Petitions to the Commissioner under §1.183 to waive any time periods for requesting revival of an unintentionally abandoned application will not be considered, but will be returned to the applicant.

* * * * *

42. Section 1.141 is proposed to be amended by revising paragraph (b) to read as follows:

§1.141 Different inventions in one application.

* * * * *

(b) A group of claims of different categories in an application so linked as to form a single inventive concept are considered to be one invention. In particular any of the following groupings of claims of different categories may be included in the same application:

(1) In addition to a claim for a given product,

(i) A claim for one process specially adapted for the manufacture of the said product, [as where] ▶ for example, where ◀ the process of making as claimed cannot be used to make other and materially different products ▶ and the product as claimed cannot be made by another and materially different process ◀;

(ii) A claim for one ▶ specially adapted ◀ use of the said product, [as where] ▶ for example, where ◀ said use as claimed cannot be practiced with another materially different product ▶ and the product as claimed cannot be used in a materially different process of using ◀; or

(iii) Both (b)(1)(i) and (ii);

(2) In addition to a claim for a given process, a claim for one apparatus or means specifically designed for carrying out of the

said process, [that is, it] ▶ for example, where the apparatus ◀ cannot be used to practice another materially different process ▶ and the process cannot be practiced by another materially different apparatus or by hand ◀ .

* * * * *

43. Section 1.153 is proposed to be amended by revising paragraph (b) to read as follows:

§1.153 Title, description and claim, oath or declaration.

* * * * *

(b) The oath or declaration required of the applicant must comply with §[1.65] ▶ 1.63 ◀ except that the period of twelve months specified therein with respect to foreign applications is six months in the case of designs.

44. Section 1.154 is proposed to be amended by revising paragraph (e) to read as follows:

§1.154 Arrangement of specification.

The following order of arrangement should be observed in framing design specifications:

* * * * *

(e) [Signature of applicant. (See §1.57)] ▶ Signed oath or declaration (See §1.153(b)). ◀

45. Section 1.162 is proposed to be revised to read as follows:

§1.162 Applicant, oath or declaration.

The applicant for a plant patent must be the person who has invented or discovered and asexually reproduced the new and distinct variety of plant for which a patent is sought (or as provided in §§1.42, 1.43, and 1.47). The oath or declaration required of the applicant, in addition to the averments required by §[1.65] ▶ 1.63 ◀ , must state that he ▶ or she ◀ has asexually reproduced the plant. Where the plant is a newly found plant the oath or declaration must also state that it was found in a cultivated area.

46. Section 1.163 is proposed to be amended by revising paragraph (b) to read as follows:

§1.163 Specification.

* * * * *

(b) Two copies of the specification (including the claim) must be submitted, but only one [need be] signed ▶ oath or declaration is required. The ◀ [and executed; the] second copy

▶ of the specification ◀ may be a legible carbon copy of the original.

47. Section 1.172 is proposed to be amended by revising paragraph (a) to read as follows:

§1.172 Applicants, assignees.

(a) Reissue [applications] ▶ oaths ◀ must be signed and sworn to or declaration made by the inventors except as otherwise provided (see §§1.42, 1.43, 1.47), and must be accompanied by the written assent of all assignees, if any, owning an undivided interest in the patent, but a reissue [application] ▶ oath ◀ may be made and sworn to or declaration made by the assignee of the entire interest if the application does not seek to enlarge the scope of the claims of the original patent.

* * * * *

48. Section 1.174 is proposed to be amended by revising paragraph (a) to read as follows:

§1.174 Drawings.

(a) The drawings upon which the original patent was issued may be used in reissue applications if no changes whatsoever are to be made in the drawings. In such cases, when the reissue application is filed, the applicant must submit a temporary drawing which may consist of a copy of the printed drawings of the patent or a photoprint of the original drawings [securely mounted by pasting on sheets of drawing board] of the size required for original drawing [, or an order for the same].

* * * * *

49. Section 1.175 is proposed to be amended by revising the first sentence of paragraph (a) to read as follows:

§1.175 Reissue oath or declaration.

(a) Applicants for reissue, in addition to complying with the requirements of [the first sentence of §1.65] ▶ §1.63 ◀, must also file with their applications a statement under oath or declaration as follows:

* * * * *

50. Section 1.301 is proposed to be revised to read as follows:

§1.301 Appeal to U.S. Court of [Customs and Patent] Appeals ▶ for the Federal Circuit ◀.

Any applicant or any owner of a patent involved in a reexamination proceeding dissatisfied with the decision of the Board of Appeals, and any party to an interference dissatisfied with the decision of the Board of Patent Interferences, may appeal to the U.S. Court of [Customs and Patent] Appeals ▶ for the Federal Circuit ◀. The appellant must take the following

steps in such an appeal: (a) In the Patent and Trademark Office give notice to the Commissioner and file the reasons of appeal (see §§1.302 and 1.304); (b) in the court, file a petition of appeal and a certified transcript of the record within a specified time after filing the reasons of appeal, and pay the fee for appeal, as provided by the rules of the court. The transcript will be transmitted to the Court by the Patent and Trademark Office on order of and at the expense of the appellant. Such order should be filed with the notice of appeal, but in no case should it be filed later than 15 days thereafter.

51. Section 1.302, paragraph (a), is proposed to be revised to read as follows:

§1.302 Notice and reasons of appeal.

(a) When an appeal is taken to the U.S. Court of [Customs and Patent] Appeals ▶ for the Federal Circuit ◀, the appellant shall give notice thereof to the Commissioner, and file in the Patent and Trademark Office, within the time specified in §1.304, his ▶ or her ◀ reasons of appeal specifically set forth in writing.

* * * * *

52. Section 1.303 is proposed to be revised to read as follows:

§1.303 Civil action under 35 U.S.C. 145, 146, 306.

(a) Any applicant or any owner of a patent involved in a reexamination proceeding dissatisfied with the decision of the Board of Appeals, and any party dissatisfied with the decision of the Board of Patent Interferences, may, instead of appealing to the U.S. Court of [Customs and Patent] Appeals ▶ for the Federal Circuit ◀ (§1.301), have remedy by civil action under 35 U.S.C. 145 or 146, as appropriate. Such civil action must be commenced within the time specified in §1.304.

(b) If an applicant in an ex parte case or an owner of a patent involved in a reexamination proceeding has taken an appeal to the U.S. Court of [Customs and Patent] Appeals ▶ for the Federal Circuit ◀, he or she thereby waives his or her right to proceed under 35 U.S.C. 145.

(c) If a defeated party to an interference proceeding has taken an appeal to the U.S. Court of [Customs and Patent] Appeals ▶ for the Federal Circuit ◀, and any adverse party to the interference shall, within twenty days after the appellant shall have filed notice of the appeal to the court (§1.302), file notice with the Commissioner that he or she elects to have all further proceedings conducted as provided in 35 U.S.C. 146, certified copies of such notices will be transmitted to the U.S. Court of [Customs and Patent] Appeals ▶ for the Federal Circuit ◀ for such action as may be necessary. The notice of election must be served as provided in §1.248.

53. Section 1.324 is proposed to be revised to read as follows:

§1.324 Correction of inventorship in patent.

Whenever a patent is issued and it appears that ▶ the correct inventor or ◀ [there was a misjoinder or nonjoinder of] inventors ▶ were not named through ◀ [and that such misjoinder or omission occurred by] error [and] without deceptive intention, the Commissioner may, on petition of all the parties and the assignees and satisfactory proof of the facts and payment of the fee set forth in §1.20(b), or on order of a court before which such matter is called in question, issue a certificate ▶ naming only the actual inventor or inventors ◀ [deleting the misjoined inventor from the patent or adding the non-joined inventor to the patent].

54. Section 1.325 is proposed to be revised to read as follows:

§1.325 Other mistakes not corrected.

Mistakes other than those provided for in §§1.322, 1.323, 1.324, and not affording legal grounds for reissue ▶ or for reexamination, ◀ will not be corrected after the date of the patent.

55. A new §1.335 is proposed to be added to read as follows:

▶ §1.335 Filing of notice of arbitration awards.

(a) Written notice of any award by an arbitrator pursuant to 35 U.S.C. 294 must be filed in the Patent and Trademark Office by the patentee, or the patentee's assignee or licensee. If the award involves more than one patent a separate notice must be filed for placement in each patent. The notice must set forth the patent number, the names of the inventor and patent owner, and the names and addresses of the parties to the arbitration. The notice must also include a copy of the award.

(b) If an award by an arbitrator pursuant to 35 U.S.C. 294 is modified by a court, the party requesting the modification must file in the Patent and Trademark Office, a notice of the modification for placement in each patent to which the modification applies. The notice must set forth the patent number, the names of the inventor and patent owner, and the names and addresses of the parties to the arbitration. The notice must also include a copy of the court's order modifying the award.

(c) Any award by an arbitrator pursuant to 35 U.S.C. 294 shall be unenforceable until any notices required by paragraph (a) or (b) of this section are filed in the Patent and Trademark Office. If any required notice is not filed by the party designated in paragraph (a) or (b) of this section, any party to the arbitration proceeding may file such a notice. ◀

56. Section 1.565 is proposed to be amended by adding a new paragraph (e) to read as follows:

§1.565 Concurrent office proceedings.

* * * * *

▶ (e) If a claim of a patent in the process of reexamination is rejected based upon a United States patent which claims the same invention, the patent owner will be given a specified time within which to file a reissue application in order to seek an interference pursuant to §1.205, if appropriate. The failure or refusal of the patent owner to file a reissue application for purposes of seeking an interference, where appropriate, shall be taken as a disclaimer of the invention covered by the claim under rejection and will result in cancellation of the claim in the reexamination certificate issued pursuant to 35 U.S.C. 307 and §1.570. ◀

57. Section 5.12 is proposed to be revised to read as follows:

5.12 Petition for License

▶ (a) Filing of an application for patent for inventions made in the United States will be considered to include a petition for license under 35 U.S.C. 184 for the subject matter of the application. The filing receipt will indicate if a license is granted. If the initial automatic petition is not granted, a subsequent petition may be filed under paragraph (b) of this section.

(b) ◀ Petitions for license under 35 U.S.C. 184 should be presented in letter form and should include petitioner's address, and full instruction for delivery of the requested license when it is to be delivered to other than the petitioner.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See Rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
